

Configurations: Eyewear volume

How to adjust eyewear volume?

When it comes to your Nuance Audio Glasses, you can always adjust the volume levels in several ways.

With Nuance Audio Glasses

You can Short Press by pressing the button on the right temple to cycle through the volume levels. An audio prompt will confirm each change.

With Remote Control

You can use the designated volume levels by pressing + and - buttons to increase or decrease the volume.

How to adjust eyewear volume?

With Nuance Audio App

Another way is to use the Volume Slider on your Nuance Audio app's home screen to adjust the volume to your preference.
